

<b>Title</b>	AIS Declared Land (External)
<b>Abstract</b>	<p>Land declared as Asset of Intergenerational Significance (AIS). This layer contains non-sensitive information and can be shared externally. This layer does not include individual threatened entity distribution. Refer to the '<a href="#">AIS Species Distribution</a>' asset for AIS species distribution.</p> <p>The data was compiled in order to service the interactive web map. Because of this, some polygons are not discrete, overlap or are duplicated. The layer is therefore not topologically correct and quite complex to decipher. Please contact the AIS team for assistance if required.</p>
