Title SoS Management Sites Overlap With AIS (External) **Abstract** Saving our Species (SoS) management sites overlapping with Asset of Intergenerational Significance (AIS). This layer contains non-sensitive information and can be shared externally. This layer only contains SoS management sites and does not contain AIS sites. Refer to the 'AIS Declared Land' asset for AIS site boundaries. The data was compiled in order to service the interactive web map. Because of this, some polygons are not discrete, overlap or are duplicated. The layer is therefore not topologically correct and quite complex to decipher. Please contact the AIS team for assistance if required. Resource locator Name: Data Quality Statement **Data Quality Statement** Protocol: WWW:DOWNLOAD-1.0-http--download Description: Data quality statement for AssetsOfIntergenerationalSignificance External Function: download Name: Download Package **Download** <u>Package</u> Protocol: WWW:DOWNLOAD-1.0-http--download Description: Data (Shapefile) Function: download Unique resource identifier Code cde78d72-c622-4b75-8212-6f8823b709d3 Presentation Map digital form Edition 1.0 **Dataset English** language Metadata standard Name ISO 19115 Edition 2016 Dataset URI https://datasets.seed.nsw.gov.au/dataset/cde78d72-c622-4b75-8212-6f8823b709d3 Purpose Threatened species conservation integration within NPWS land management programs Status On going Spatial representation Type vector Geometric complex Object Type Spatial reference system
