

<b>Title</b>	Bingara State Conservation Area Derra Derra Section Vegetation 2009 VIS_ID 4712
<b>Alternative title(s)</b>	BingaraSCA_DerraDerra2009_E_4712
<b>Abstract</b>	<p>Bingara CCA Zone 3 State Conservation Area Derra Derra Section vegetation mapping was undertaken by Dr John T. Hunter in July 2009 by contract for the NPWS Northern Tableland Region. (The Molroy Section was completed in October 2009). The Derra Derra Section is approximately 12km west of Bingara.</p> <p>The vegetation of the Derra Derra section of Bingara State Conservation Area described and mapped (scale 1:50 000). Eight communities are defined based on classification (Kulczynski association). These Eight communities were mapped based on ground truthing, air photo interpretation and landform.</p> <p>VIS_ID 4712</p>

**Lineage** John T. Hunter prepared the report of the vegetation of the Derra Derra section of the Bingara State Conservation Area. Aims included the collation of existing information from previous floristic surveys and that the survey of 19, 20 x 20 m stratified full vascular plant floristic sites is carried out in order to complete a comprehensive investigation of the vegetation and flora of Derra Derra. The report represents the findings of this study. The collated information is to be used as a guide for management purposes.

The requirements of the investigation were: 1. Collate existing information from previous vegetation surveys conducted within the conservation areas. 2. Site placement to be based on selected environmental variables and be distributed based on the area they occupy. 3. Identify weed species and their occurrence. 4. Identify RoTAP, EPB&C Act and TSC Act species and their occurrence. 5. Identify regionally significant species. 6. Provide known fire ecology information on species and communities. 7. Construction of a vegetation map based on communities as defined by classification and ordination analyses. 8. Provide management recommendations.
