Purpose Secondary data are available from ABS Agricultural and Population censuses for many of the economic indicators and measures identified in the Water Sharing Plan Evaluation Framework. But the data are at a scale that does not match with the water sharing plan (WSP) regions. NSW DPE – Water purchased customised data for each of the 59 WSP regions (58 since July 2023, Bega and Murrah-Wallaga Unregulated and Alluvial WSPs are merged into Bega Unregulated and Alluvial WSP 2023) from 2006, 2011, 2016 and 2021 ABS censuses. This allows development of evidence data packs to address key evaluation questions related to economic impacts of WSPs. Note: ABS could not provide agricultural census data on Barwon-Darling Unregulated River Water source WSP for technical reasons.
