

Title	Dorrigo plateau biodiversity corridor vegetation and koala habitat mapping
Abstract	<p>Fine-resolution map of PCTs within the Dorrigo Plateau, the Dorrigo-Junuy Corridor, Deer-New Corridor and the Bagul-New Corridor that are inconclusive.</p> <p>Min polygon size = 0.5 hectares, min polygon width = 20m</p> <p>Field validation of mapping, including ground-truthing, and collection of rapid and full-floristic plot data using the Plant Community Type (PCT) classification.</p> <p>Structural information captured in the following 3 fields: 1. Dominant Canopy growth stage, 2. Level of disturbance, 3. Stand density.</p>
