Title Environmental Planning Instrument - Land Application (LAP)

Alternative title(s)

Abstract This spatial dataset identifies the boundaries of land to which a NSW Standard Instrument Local Environmental Plan applies including areas which may be excluded or deferred as designated by the relevant NSW environmental planning instrument (EPI) under the Environmental Planning and Assessment Act 1979.

Contact data.broker@environment.nsw.gov.au for a data package (shapefile).

## Resource locator

Show on SEED

Name: Show on SEED Web Map

Web Map

Protocol: WWW:DOWNLOAD-1.0-http--download

Description:

Display dataset on SEED's map

Function: download

Data Quality Statement Name: Data Quality Statement

Protocol: WWW:DOWNLOAD-1.0-http--download

Description:

DQS - Standard Instrument Local Environmental Plan - Land Application (LAP)

Function: download

WMS

Name: WMS

Protocol: WWW:DOWNLOAD-1.0-http--download

Description:

The layers listed below are exposed by this service. The individual will need to select the specific layer pertaining to this record from the exposed layers.

- Heritage
- Floor Space Ratio
- Land Zoning
- Land Reservation Acquisition
- Lot Size
- Height of Building
- Land Application

Function: download

ArcGIS REST
Services
Directory

Name: ArcGIS REST Services Directory

Protocol: WWW:DOWNLOAD-1.0-http--download

Description:

The URL directs users to the ArcGIS Server service directory of the Standard Instrument LEP - a view of REST API in HTML and allows users to:

- Browse the list of Layers.
- View Data for e.g. using ArcGIS.com
- View Map Service metadata: Initial/Full Extent, units, supported format types etc.,
- Drill down to individual tables/layers, view schema and run queries.

Function: download

WFS Name: WFS

Protocol: WWW:DOWNLOAD-1.0-http--download

Description:

The layers listed below are exposed by this service. The individual will need to select the specific layer pertaining to this record from the exposed layers.

## Lineage

This spatial dataset reflects the current planning legislation in NSW in particular the maps and legislation published on the NSW legislation website (www.legislation.nsw.gov.au). The data production usually occurs in conjunction with the development of the Local Environmental Plan it is connected to. Original data inputs are produced by Local Government and/or the Department according to map and data standards developed by the Department and published externally via the website. These data inputs are checked by data and cartographic staff as well as planning staff internally against the map and data standards as well as for accurate content. Once the planning instrument is notified, the input data will be incorporated into the LEP dataset. The quality management processes involved in the data production to this point are routinely screened by internal and external auditors for certification under ISO 9001 - Quality Management Systems. At this point the various datasets are then combined into a new normalised data schema to suit the requirements of the online Planning Viewer. This occurs via various automated ETL processes. Although every care is taken in ETL processes to maintain accuracy sometimes differences between inputs and final normalised data can occur.

## Limitations on public access

Scope dataset

DQ Completeness Omission

Effective date 2016-11-25

Explanation Some amendments with data partially or completely missing have been identified.

**DQ Topological Consistency** 

Effective date 2016-11-25

Explanation Data has not been verified for its alignment with other EPI data or Cadastre

**DQ Non Quantitative Attribute Correctness** 

Effective date 2016-11-25

Explanation Attributes implemented using Domains or Subtypes are 98% accurate
