

Title	Grasslands, Pre-Settlement, South-eastern Highlands. VIS_ID 4099
Alternative title(s)	GrasslandsPreSettlement_P_4099
Abstract	<p>Three sets of maps between them provide an almost complete coverage of the pre-settlement boundaries of natural temperate grasslands within the study area. They are the boundaries delineating grasslands of the Monaro (developed as part of broad vegetation mapping there (Costin, 1954; digitised by NPWS in 1998), the grassland boundaries in the ACT (digitised by ACT P&amp;CS WRM) and the pre-settlement boundaries developed as a central program of this project, and covering a significant portion of South Eastern Highlands Bioregion. In Costin's (1954) map of the vegetation of the Monaro region, the map units delineated represent Costin's vegetation alliances. ACT vegetation was mapped by Pryor in 1939. This mapping included 5 alliances of woody species and one grassland alliance. This interpretation of ACT grassland areas has survived into modern mapping interpretations with some modifications. The current products mapped new boundaries for areas beyond the Monaro and ACT. This product present pre-European settlement grassland boundaries for an area covered by a series of 1:100 000 map sheets (Braidwood, Boorowa, Brindabella, Canberra (excluding the ACT section), Crookwell, Goulburn, Gunning and Yass). VIS_ID 4099</p>

Purpose	To map pre-settlement boundaries of natural temperate

	grasslands within a significant portion of South Eastern Highlands.
<b>Status</b>	Completed
<b>Spatial representation</b>	
Type	vector
<b>Spatial reference system</b>	
Code identifying the spatial reference system	4283
<b>Equivalent scale</b>	1:None
<b>Additional information source</b>	Rehwinkel, R (1997) Grassy ecosystems of the south eastern highlands: technical report : literature review, data audit, information gap analysis and research strategy. Stage 1, Joint biodiversity survey of grassy ecosystems of the South Eastern Highlands project, NSW National Parks & Wildlife Service.
<b>Topic category</b>	

<b>Keyword set</b>	
keyword value	Vegetation
Originating controlled vocabulary	
Title	ANZLIC Search Words
Reference date	2008-05-16
<b>Geographic location</b>	
West bounding longitude	147.5
East bounding longitude	150
North bounding latitude	-37
South bounding latitude	-33.5
<b>Vertical extent information</b>	
Minimum value	-100
Maximum value	2228
Coordinate reference system	
Authority code	urn:ogc:def:cs:EPSG::
Code identifying the coordinate reference system	5711
<b>Temporal extent</b>	
Begin position	1990-01-01
End position	N/A
<b>Dataset reference date</b>	
<b>Resource maintenance</b>	
Maintenance and update frequency	As needed
