Title	Gwydir Wetlands and Floodplain Vegetation mapping, 2005. VIS_ID 3921
Alternative title(s)	GwydirWetlands_2005_E_3921
Abstract	Vegetation associations of the Gwydir Watercourse were mapped from 1:50,000 scale colour aerial photographs taken during the period 26 August 2005 – 10 October 2005. VIS_ID 3921

Lineage

Vegetation associations of the Gwydir Watercourse were mapped from 1:50,000 scale colour aerial photographs taken during the period 26 August 2005 – 10 October 2005. With the aid of a stereoscopic viewer, map polygon boundaries were first identified on the aerial photographs and then drawn onto an acetate overlay over SPOT 5 satellite images of the same area captured during December 2004 and printed at 1:50,000 scale. Acetates with polygon boundaries were scanned and overlayed on the images in Arcview. The map was prepared as an Arc shape file.

Limitations on public access

Scope dataset

DQ Completeness Commission

Effective date 2001-01-01

Explanation final

DQ Completeness Omission

Effective date 2001-01-01

Explanation final

DQ Absolute External Positional Accuracy

Explanation Polygon boundaries were validated against SPOT 5 imagery and during field surveys.

DQ Non Quantitative Attribute Correctness

Explanation Field survey of vegetation communities was undertaken in March 2008.
