## Title Large-flowered collomia (Collomia grandiflora) 2019 Survey This survey was conducted to establish the current range of this invasive species and **Abstract** to provide a baseline for further surveys. Herbarium specimens were collected to substantiate the current distribution. The objectives of the current survey were to: • re-locate plants at sites where previously recorded • record habitat type • collect herbarium specimens • record any other ecological observations. This document reports on a four-day survey conducted between February 2019 and May 2019 in Kosciuszko National Park. The report also includes up-to-date (March-April 2019) records from NPWS staff members for areas that could not be covered during the survey period.
