

Title	Macquarie Marshes Vegetation,1991-2008. VIS_ID 3920
Alternative title(s)	MacquarieMarshes_2008_E_3920
Abstract	This is DRAFT metadata and will be updated in 2011. Vegetation communities of the Macquarie Marshes floodplain in 2008 were mapped by updating the linework and attributes of the 1991 Macquarie Marshes vegetation map (Wilson 1992) using digital aerial photography (50cm pixels) taken from March to May 2008 and field surveys conducted in May, October and November 2008. VIS_ID 3920

Dataset URI	https://datasets.seed.nsw.gov.au/dataset/094d6069-91e2-4b41-bb80-dfda2223a5ed
Purpose	1. To create maps of the distribution of vegetation communities in the Macquarie Marshes at decadal intervals.2. To define trends in the condition of key vegetation communities.3. To establish a series of vegetation plots within key vegetation communities for more detailed floristic survey and as a benchmark for trend analysis.4. To interpret the changing extent and condition of vegetation communities in relation to alterations in hydrology and land use.
