Title Mine Final Landuse **Abstract** The Final landuse spatial data set provides information on the proposed final landuse and landform for each large mine in NSW following the completion of mining and rehabilitation activities. This information is created and submitted by each large mine operator to fulfill the Final Landuse and Rehabilitation Plan data submission requirements required under Schedule 8A of the Mining Regulation 2016. The collection of this spatial data is administered by the Resources Regulator in NSW who conducts reviews of the data submitted for assessment purposes. In some cases, information provided may contain inaccuracies that require adjustment following the assessment process by the Regulator. The Regulator will request data resubmission if issues are identified. Further information on the reporting requirements associated with mine rehabilitation can be found at https://www.resourcesregulator.nsw.gov.au/rehabilitation/minerehabilitation. Find more information about the data at https://www.seed.nsw.gov.au/final-landuselayer Any data related questions should be directed to nswresourcesregulator@servicenow.com Resource locator Show on SEED Name: Show on SEED Web Map Web Map Protocol: WWW:DOWNLOAD-1.0-http--download Description: Display dataset on SEED's map Function: download Placeholder Name: Placeholder Protocol: WWW:DOWNLOAD-1.0-http--download Description: Placeholder Function: download Unique resource identifier Code a54c2386-476d-4454-95f6-4f32729d5f87 Presentation Map digital form Dataset **English** language Metadata standard Name ISO 19115 Edition 2016 https://datasets.seed.nsw.gov.au/dataset/a54c2386-476d-4454-95f6-4f32729d5f87 Dataset URI To show the final landuse and landform for mines following completion of mining and Purpose rehabilitation activities
