

Title	Murrumbidgee CMA vegetation mosaic map, 2011. VIS_ID 3879
Alternative title(s)	MurrumbidgeeCMA_2011_E_3879
Abstract	A mosaic vegetation map based on 'best available' vegetation mapping data sets compiled for the Murrumbidgee Catchment Management Authority (CMA). A seamless vegetation map was produced by allocating each of the vegetation types within the composite data sets to one of the NSW Keith Vegetation Classes. Mapping accuracy and resolution within the composite maps varied significantly. Where there was overlap the data set considered to be most accurate took precedence, replacing the less accurate data. Unique resource identifier	
Code	5d1422ca-7c8b-47b3-8684-b75f0fe1e870
Presentation form	Map digital
Edition	Not known
Dataset language	English
Metadata standard	
Name	ISO 19115
Edition	2016
Dataset URI	https://datasets.seed.nsw.gov.au/dataset/5d1422ca-7c8b-47b3-8684-b75f0fe1e870
Purpose	The mosaic vegetation map was used to generate NRM investment priority maps using the Biodiversity Forecasting Tool. These included priority for priority for protection of high conservation value remnants, priority for repair and revegetation of cleared lands.
Status	Completed
Spatial representation type	grid
Spatial reference system	

Code identifying the spatial reference system	4283
Spatial resolution	25 m
