

Title	Native vegetation map: Cohuna, Conargo, Echuca, Mathoura, Moulamein, Tuppall and Wanganella 1:100000 map sheets, and Deniliquin 1:250000 map sheet. Native Vegetation Mapping Program (NVMP). VIS_ID 874
Alternative title(s)	deniliquin_NVMP_VISmap_874
Abstract	Native vegetation, including forest, woodland and grass/forbland assemblages, is described and mapped as part of the Native Vegetation Mapping Program (NVMP). Floristic composition of map units is based on analysed, plotbased floristic data collected at 503 plots (20 by 20 metres) using a random stratified sampling procedure. 27 floristic groups were described and 22 map units were identified. Spatial delineation of map units is accomplished using stereoscopic air photo interpretation assisted by satellite imagery. (VIS_ID 874)

Lineage	Plot localities were determined from GPS and are accurate to within set tolerances. Plot localities were checked against 1:50 000 scale topographic maps. Minimum accuracy was 20 metres. Plot data were checked for positional accuracy via visual display in ArcView and visual checking of the database.
