Title	NSW COAST FLOOD SUMMARY FEBRUARY/MARCH 2022	
Abstract	The NSW coast experienced flooding in February/March 2022 due to significant rainfall events. The aim of this report is to provide a snapshot of the intensity of flooding experienced across the coast of NSW based on the river and rainfall data collected within the 61 disaster declared LGAs. This flood summary report will assist with decision making for prioritisation and future investment for flood risk management.
