

Title	Private Native Forestry Koala Prescription Map
Abstract	<p>The PNF Koala Prescription Map identifies areas that are mapped as high koala habitat suitability for the purpose of implementing the koala protections under the Private Native Forestry Codes of Practice. The dataset represents a predictive habitat model with inputs from a range of scales and accuracies. While the map has been produced at a 5x5m scale, on-ground verification at the site scale is provided for under the PNF Codes of Practice.</p> <p>For more information, including details of map lineage (production method) and regulatory prescriptions, please see: https://www.lis.nsw.gov.au/help-and-advice/private-native-forestry/private-native-forestry-code-of-practice</p>

ArcGIS REST SERVICE - Private Native Forestry Koala Prescription Map	<p>Name: ArcGIS REST SERVICE - Private Native Forestry Koala Prescription Map</p> <p>Protocol: WWW:DOWNLOAD-1.0-http--download</p> <p>Description:</p> <p>An ArcGIS Server web service represents a GIS resource—such as a map, locator, or image—that is located on an ArcGIS Server site and is made available to client applications. Depending on the layers enabled, this web service allows a user to query its features and/or visualise the dataset. This service is aimed at advanced geographical information users, and will require access to geographical information system (GIS) software such as ArcGIS/ArcMap.</p> <p>Function: download</p>
