

Title	Scone - Floodplain Management Study & Plan
Abstract	<p>Within <b>Chapter 2</b>, the characteristics of the study's catchments are described. This includes land use, social profile, heritage and vegetation issues. A list of authorities and agencies who may be affected when flooding occurs in the catchment is also provided.</p> <p><b>Chapter 3</b> outlines the information that was available for this study including mapping and previous studies. The flood damages data base (a description of all residential and business properties in the Middle Brook, Kingdon Ponds, Parsons Gully and Figtree Gully floodplains) is described, together with the community consultation strategy utilised in this study, and the results of the community questionnaire.</p> <p><b>Chapter 4</b> presents the assessment of flood behaviour within Figtree Gully which was carried out within the study.</p> <p>A description of recent flood history, flood behaviour and the impacts and potential damage caused by floods is provided in <b>Chapter 5</b>. <b>Chapter 6</b> provides an overview of floodplain management including existing management measures, the selection of the flood planning level and funding. <b>Chapter 6</b> also details the methodology used for the assessment of floodplain management options.</p> <p>The range of floodplain management options that was examined for the Scone district, as part of this study, is described in <b>Chapter 7</b>.</p> <p><b>Chapter 8</b> outlines the Floodplain Management Plan for Scone, summarising the recommendations of the study.</p> <p>A full list of references is provided in <b>Chapter 9</b>. An index of key words is contained in <b>Chapter 10</b>.</p> <p>A number of appendices are included. <b>Appendix A</b> is the largest and comprises an extensive description of town planning issues.</p>
