

Title	Single National Park Vegetation 2000 VIS_ID 4755
Alternative title(s)	SingleNP_2000_E_4755
Abstract	<p>Single National Park vegetation mapping was undertaken by Dr Peter Clark, Dr Lachlan Copeland and Natasha Noble in 2000 by contract for the NPWS Northern Tableland Region. Single National Park is located on the western edge of Guyra Plateau, 18km east of Tingha and 60km north of Armidale.</p> <p>Maps of veg structure were initially prepared at 1:25,000 scale based on photo pattern interpretation colour aerial photographs.</p> <p>VIS_ID 4755</p>

Lineage	Maps of veg structure were initially prepared at 1:25,000 scale based on photo pattern interpretation colour aerial photographs. Further delineation of veg types was based on the correlation between floristics groups and spatial variables shown on 25k topographic maps and a geological map of the area. Explicit decision trees were developed to define and tag polygons.
