

<b>Title</b>	Streamwatch
<b>Abstract</b>	<p>Streamwatch is an educational and capacity-building program that utilises the passion of community groups to monitor the quality and health of local watercourses across the greater Sydney and Blue Mountains and Illawarra regions.</p> <p>This dataset includes physical and chemical parameters collected during the period from 1990 to 2020. Environmental monitoring data was collected monthly by trained volunteers during this period.</p> <p>The Streamwatch program was originally funded and managed by Sydney Water, transferred to the Australian Museum in 2012 and then to Greater Sydney Landcare Network (GSLN) in 2019.</p> <p>Streamwatch water quality data methodologies align with the national Waterwatch program and GSLN understands the importance of making this data publicly available for future use.</p>
