

Title	Summary Data: Monitoring and Observations Effort by Terrestrial Ecoregion
Abstract	<p>Summary of terrestrial environmental monitoring and observation effort by networks associated with three Australian National Research Infrastructures from 2010 to the present organised by State/Territory, IBRA region, feature type and year.</p> <p>Metadata records were aggregated from biodiversity survey events from the Atlas of Living Australia (ALA, https://ala.org.au/), marine observations collected by the Integrated Marine Observing System (IMOS, https://imos.org.au/) and site-based monitoring and survey efforts by the Terrestrial Ecosystem Research Network (TERN, https://tern.org.au/). See Aggregated Data: Environmental Monitoring and Observations Effort for information on the metadata included.</p> <p>To find out more about this dataset visit: https://ecoassets.org.au/data/summary-data-monitoring-and-observations-effort-by-terrestrial-ecoregion/</p>
