

Title	Surface Water Quality Data (Field Sampling and Laboratory Analysis)
Abstract	<p>The Water Quality API allow users and application developers to get field and laboratory water quality data for water quality monitoring stations across all NSW water sources. Product/Asset name: 1. Water Data (API) - Surface Water Data API - Time series WQ data 2. Water Quality External (API) - Field and laboratory sample WQ data Link: https://api-portal.waternsw.com.au/ Users will be required to register and subscribe to consume the API/fetch the data.</p> <p>WaterNSW is making the information available on the understanding that it does not warrant that the information is suitable for any intended use. In using the information supplied, the user acknowledges that they are responsible for any deductions or conclusions arrived at from interpretation of the data.</p>
