The Water Quality API allow users and application developers to get field and **Abstract** laboratory water quality data for water quality monitoring stations across all NSW water sources. Product/Asset name: 1. Water Data (API) - Surface Water Data API -Time series WQ data 2. Water Quality External (API) - Field and laboratory sample WQ data Link: https://api-portal.waternsw.com.au/ Users will be required to register and subscribe to consume the API/fetch the data. WaterNSW is making the information available on the understanding that it does not warrant that the information is suitable for any intended use. In using the information supplied, the user acknowledges that they are responsible for any deductions or conclusions arrived at from interpretation of the data. Resource locator Name: Surface Water Quality Data (Field Sampling and Laboratory Analysis) Surface Water **Quality Data** Protocol: WWW:DOWNLOAD-1.0-http--download (Field Sampling and Laboratory Description: Analysis) Users will be required to register and subscribe to consume the API/fetch the data Function: download Name: Data Quality Statement **Data Quality Statement** Protocol: WWW:DOWNLOAD-1.0-http--download Description: DQS for Surface Water Quality Data (Field Sampling and Laboratory Analysis). The Data Quality Statement is for users to understand how a particular dataset could be used and whether it can be compared with other, similar datasets. It provides a description of the characteristics of the data to help the user decide whether the data will be fit for their specific purpose (ICT Strategy, NSW Government accessed 23rd May 2016) Function: download Unique resource identifier Code b7ced7c5-0ec5-48b2-bff0-1529b966aa5e Presentation form Dataset English language Metadata standard ISO 19115 Name 2016 Edition Dataset URI https://datasets.seed.nsw.gov.au/dataset/b7ced7c5-0ec5-48b2-bff0-1529b966aa5e Purpose Provision of field and laboratory water quality data. **Status** Completed Spatial representation Type vector

Surface Water Quality Data (Field Sampling and Laboratory Analysis)

Title

Spatial reference system

Code identifying the spatial 4283 reference system
