

Title	Sutherland Shire Vegetation Communities Map, 2011. VIS_ID 4198
Alternative title(s)	SutherlandLGA_2011_E_4198
Abstract	<p>Vegetation types including Endangered Ecological Communities (EEC's) in the Sutherland Shire. Coverage does not extend across all of national park estate. The data displays the distribution of EEC's based on the characteristics of the final determinations presented by the Scientific Committee under the Threatened Species Conservation Act or the Environment Protection and Biodiversity Conservation Act. Other vegetation communities are based on vegetation types and descriptions published in Cunninghamia 3(4): 677-1004 1994 The Natural Vegetation of the Sydney 1:100000 map sheet. Vegetation distribution is originally based on interpretation of 2001 aerial photographs, topography and extensive ground truthing. Using 2011 aerial photography location of polygons has been revalidated January 2012.</p> <p>Please note: 1. Sutherland Shire Council retains copyright of data. 2.
