

Title	The Native Vegetation Of The Woodford And Erskine Ranges, Kings Tableland And Narrow Neck Peninsula In The Blue Mountains National Park VIS_ID 2262
Alternative title(s)	erskine_VISmap_2262
Abstract	The distribution and composition of the native vegetation of the Erskine and Woodford Ranges, Kings Tableland and Katoomba Escarpment within Blue Mountains National Park.; ; VIS_ID 2262

Lineage

Extensive Aerial Photo Interpretation (API) was required to generate a complete spatial coverage of the study area showing the distribution of landcover elements. An experienced aerial photograph interpreter was used to stereoscopically map the variation in photo pattern. These patterns were related to vegetation, geological and topographical features observed during extensive field traverses. Both field work and interpretation occur simultaneously, with the interpreter annotating aerial photographs while traversing.
