

Title	Vegetation Survey of the Glenalbyn addition to Ledknapper Nature Reserve VIS ID 907
Alternative title(s)	Ledknapper_add_VISmap_907
Abstract	<p>The composition and extent of the present vegetation within the Glenalbyn addition to Ledknapper Nature Reserve is described and mapped. Forty quadrat-based sites were sampled, with intensive field traverses and aerial photograph interpretation. Six vegetation communities are described and 207 taxa of vascular plants recorded, seven of which are considered to be rare and threatened or regionally significant (twelve including previous survey records).</p> <p>Porteners, Marianne F. (October 2006) Vegetation Survey of the Glenalbyn addition to Ledknapper Nature Reserve. Report to the Department of Environment and Conservation (NSW) (Marianne Porteners Environmental Consulting: Sydney). (VIS ID 907)</p>

Lineage	Vegetation communities mapped at 1:50 000 scale using aerial photographs, SPOT satellite imagery, site data and ground traverses. Detailed botanical survey conducted by recording the structural and floristic composition of the vegetation communities using stratified random quadrat sampling. Community groups defined using PATN multivariate analysis. Direct assignment by visual interpretation of detectable attributes of floristic groups on remote imagery
